PERSONAL PROFILE

MSc Artificial Intelligence student with 3 years' experience in the IT sector, primarily as a front-end developer and have knowledge of HTML, CSS, JavaScript, React JS, and web apps. Through this experience I have collaborated with cross-functional teams to convert design thoughts into user-friendly interfaces, and I also have experience with UI design. Now seeking a role in front-end development.

EDUCATION

JANUARY 2024–May 2025

MSc Artificial Intelligence, LONDON METROPOLITAN UNIVERSITY

- pursued a major in computer vision, which included deep learning and image processing utilizing OpenCV, TensorFlow, and Keras. Information security was a major that taught me about encryption and decryption.
- Another significant thing that RasberyPI taught them how to utilize was cloud computing.

SEPTEMBER 2013–AUGUST 2018

Undergraduate of Computer Engineer (So1ware), AZAD UNIVERSITY OF TEHRAN

- GRADE from 20 : Data Base (16) , Compiler (15), Software Engineer1(16) , Programming(17)Computer Architecture (17)
- A LEVEL : Math(A) , English(A) , information technology (A)

WORK EXPERIENCE

APRIL 2021– JANUARY 2024

FRONT-END DEVELOPER, FREELANCER

I was a Front-end developer as well as leadership a group of UI/UX designers and back-end developers for several projects throughout the world. Develop and implement various online apps with JavaScript, CSS, and ReactJS. implemented by Hook, and they are developed and supported by the Rest API.Using GitHub for version control and backups.

- ReactJS was used for the implementation, and Figma was used for the UI/UX design of the Hamitest website. Psychological tests are available on this website , and it is a successfully project.
- ReactJS was used in conjunction with HTML, CSS, and a unique website design strategy to develop the DailyScribe website, and it is a successfully project.
- Abfa is a solitary web page designed for data entry for the Iran Water and Wastewater

Organization, utilising ReactJS and the Rest API. it is a successfully project.

- A Falcom is a Canadian website for gaming tournaments that makes use of CSS, ReactJS (Hook), and Rest API. created a template using UX/UIK This project was abandoned by the employer.
- A For a Turkish company, I made the Gold Robot exchange website template using only the UI/UX's HTML and CSS. it was a successfully project.
- A For the design, I only used HTML, CSS, and Bootstrap. Carbon Steel is an Iranian iron company.
- The oil products from Qalay Sharan are showcased on their website, which was created using ReactJs and Bootstrap. it is a successfully project.

APRIL 2022– NOVEMBER 2023

SENIOR FRONT-END DEVELOPER, MOSHANIR POWER ENGINEERING CONSULTANTS, IRAN

I managed a group of less experienced front-end engineers, offered guidance, and worked as a team to solve problems. Using ReactJS, Hook for implementation, and Rest API support, construct and develop various online applications. Using GitHub for version control and backups.

- I oversaw the development of a team that created the company's intranet for 20 different departments. All of them were with team and created with ReactJS and Node JS.
- I used Figma and ReactJS to design an employment application, which I subsequently developed using ReactJS and my back-end team's.NET implementation. This was a huge transformation for the firm.
- I Implemented a control panel web page for administrators of web users that created by ReactJS and Scss.

APRIL 2021– MARCH 2022

JUNIOR FRONT-END DEVELOPER, MOSHANIR POWER ENGINEERING CONSULTANTS, IRAN

I Assisted in developing web interfaces using HTML, CSS, and ReactJs. Collaborated with senior developers to troubleshoot and debug code. Demonstrated a proactive approach to learning and contributing to project success.

- I used ReactJS and the Rest API for the first time at this firm to develop a web application for health and medicine.
- Create a new website for the employer using Hook, Rest API, ReactJS, and CSS after 10 years. I am working in a team on this excellent project, and we are developing it for many projects.
- I developed outdated websites for many divisions, and I modified the design based on my suggestions.

ONLINE COURSES

- **Udemy** : Master CSS3 and ReactJs by Developing 3 Projects
- **Udemy** : CSS, Bootstrap, ,JavaScript, Web Development
- **University Of London** : Responsive Website Basics: Code with HTML, CSS, and JavaScript
- **LinkedIn** : React for Web Designers
- **LinkedIn** : Sass Essential Training
- **LinkedIn** : Learning Git and GitHub

Languages

- **PERSIAN** : NATIVE SPEAKER
- **ENGLISH** : FLUENT
- **GERMAN**: BEGINNER
